

Coachella Valley IRWM Region

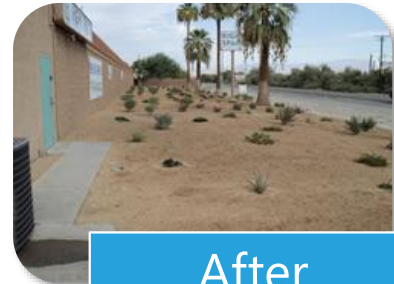

CV Water Counts Regional Conservation Program

Project Highlight

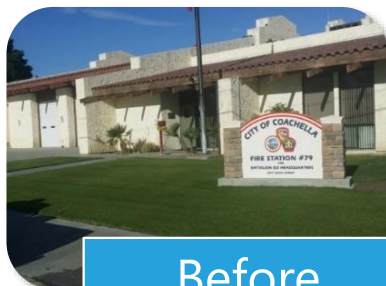

The *CV Water Counts Regional Conservation Program (CV Water Counts)* was established by the Coachella Valley Regional Water Management Group (CVRWMG) to conserve water in the Coachella Valley. The program provides incentives for the installation of water efficient devices and turf removal rebates. *CV Water Counts* is designed to reduce water demand, increase the region's water supply, improve regional water quality, and improve efficiency and flexibility. The program has saved more than 56 billion gallons of water since 2015. Visit the [CV Water Counts Website](#) to learn more!
