
Coachella Valley IRWM Plan Objectives

from the 2018 Coachella IRWM and Stormwater Resource Plan

Refer to Chapter 6 of the 2018 Coachella Valley IRWM and SWR Plan for further details about each objective, including the targets and metrics for each objective. Download the document:

<http://www.cvrwmg.org/irwm/irwm-plan/>

- **Objective A: Provide reliable water supply for residential and commercial, agricultural community, and tourism needs.**
- **Objective B: Manage groundwater levels to reduce overdraft, manage perched water, and minimize subsidence.**
- **Objective C: Secure reliable imported water supply, including restoring/improving reliability of State Water Project supply and securing other imported water supplies.**
- **Objective D: Maximize local supply opportunities, including water conservation, water recycling and source substitution and capture infiltration of runoff.**
- **Objective E: Protect groundwater quality and improve, where feasible.**
- **Objective F: Preserve and improve surface water quality by maintaining integrity of agricultural drainage systems, protecting the quality of natural runoff used for potable supply, and reducing pollution in stormwater runoff.**
- **Objective G: Preserve the water-related local environment and restore, where feasible.**
- **Objective H: Manage flood risks, including current acute needs and needs for future development.**
- **Objective I: Optimize conjunctive use of available water resources.**
- **Objective J: Maximize stakeholder involvement and stewardship in water resource management.**
- **Objective K: Address water-related needs of local Native American culture.**
- **Objective L: Address water and sanitation needs of disadvantaged communities, including those in remote areas.**
- **Objective M: Maintain affordability of Water.**
